AVISTRATA FLIGHT SCHOOL

Your school and your fleet in one system.

Avistrata Flight School puts scheduling, training records, endorsements, checkouts and rental billing in the same system that keeps your aircraft airworthy. It's for Part 61 schools, with Part 141 as an option, and students and renters get their own app.

Part 61 and 141 | Training records | AC 61-65 endorsements | Booking checks | Rental billing | Maintenance included | Student app

WHY SCHOOLS SWITCH

One system instead of two or three

Airworthy before it's bookable

Inspections, ADs and life-limited parts run off the same Hobbs and tach times. When an aircraft is grounded or overdue, everyone booked on it is told by push, email or text, and same-type aircraft are offered.

The right pilot in the right airplane

Every booking checks the solo endorsement, the aircraft checkout, rental currency, the flight review and the account balance, each set to Off, Warn or Block.

Billing without re-typing

Check-in turns Hobbs or tach into the invoice for the aircraft, instruction and ground time, less any fuel receipt. It's paid from prepaid credit, and a draft lesson record waits for the instructor.

WHAT'S INCLUDED

Everything a school runs on

Area	What you get
Dashboard	Active students and their progress, solo endorsements running out, lessons waiting for a signature, and account balances.
Courses	Part 61 and 141 courses with stages and lessons. A library of 18 standard courses: certificates, ratings, CFI, CFII and MEI, endorsements, flight review, IPC and ground schools.
Lessons	Each item graded 1–5, from Introduced to Checkride standard, and the lesson marked Satisfactory, Unsatisfactory or Incomplete. A signed lesson can't be changed, and the student confirms they've read it.
Part 141	Stage checks and end-of-course checks given by the chief instructor or a check instructor, never the student's own instructor.
Endorsements	19 standard templates in the style of AC 61-65. The wording fills in the student and aircraft, the CFI signs and issues it, and you print it or copy the text for the logbook. It can be revoked with a reason, and each student has a full history.
Checkouts	A pilot's checkout in each make and model, checked on every booking.
Scheduling	Aircraft and instructor bookings that offer the student's next lesson, a Plane Rental calendar, and an "I'm here" check-in from the Student app.
Accounts	Prepaid balances, deposits, block-time packages, refunds and adjustments, and a statement for each pilot. Aircraft rates are per hour, on Hobbs or tach, wet or dry. Instructors have their own rates.

Area	What you get
Simulators	Sessions from BLACKSTAR and Mindstar simulators go straight into the logbook, lessons and billing.
Fuel orders	Order fuel from a booking. The provider confirms it and marks it fueled from an email link.
Messages	Email and text templates, sent now or scheduled, plus automatic reminders before a booking.
Maintenance	The full maintenance workspace: due tracking, ADs and service bulletins, inspections, squawks, work orders and task cards, with signed electronic records.
Roles	Instructor, Chief Instructor, Check Instructor, Student and Front Desk, each seeing what they need.

FOR STUDENTS AND RENTERS

The MRO Tracker Student app

Book

A day view of every aircraft and instructor, and a week view of one. Tap a free half hour to book, and the school's rules are checked as you go.

Train

Course progress, graded lessons to read and acknowledge, endorsements and the logbook.

Pay and stay on time

Account balance and payments, messages, and the next flight on the iPhone Lock Screen with a countdown.

The Student app for iPhone, iPad and Android is coming soon to the App Store and Google Play. Until then, students use Avistrata in the browser on any phone.

MOVING OVER

Bring your data with you

Connect your Flight Schedule Pro account, or upload report exports from Flight Schedule Pro or Flight Circle. People, aircraft, flight history, reservations, training records and balances come across, and you check them before anything is imported. Avistrata can also export your school's data in Flight Schedule Pro's format at any time.

See your school in *Avistrata*

A 30-minute demo where we set up your courses and aircraft with you.
