MRO TRACKER

FLIGHT SCHOOL EDITION · OCTOBER 2026

Your school and your fleet in one system.

Scheduling, training records, endorsements, checkouts and rental billing, in the same system that keeps your aircraft airworthy. For Part 61 schools, with Part 141 as an option, and an app for students and renters.

WHY SCHOOLS SWITCH

One system instead of two or three

AIRWORTHY

Airworthy before it's bookable

Inspections, ADs and life-limited parts run off the same Hobbs and tach. When an aircraft is grounded, everyone booked on it is told and offered a same-type aircraft.

BOOKING CHECKS

The right pilot in the right airplane

Every booking checks the solo endorsement, aircraft checkout, rental currency, flight review and account balance, each set to Off, Warn or Block.

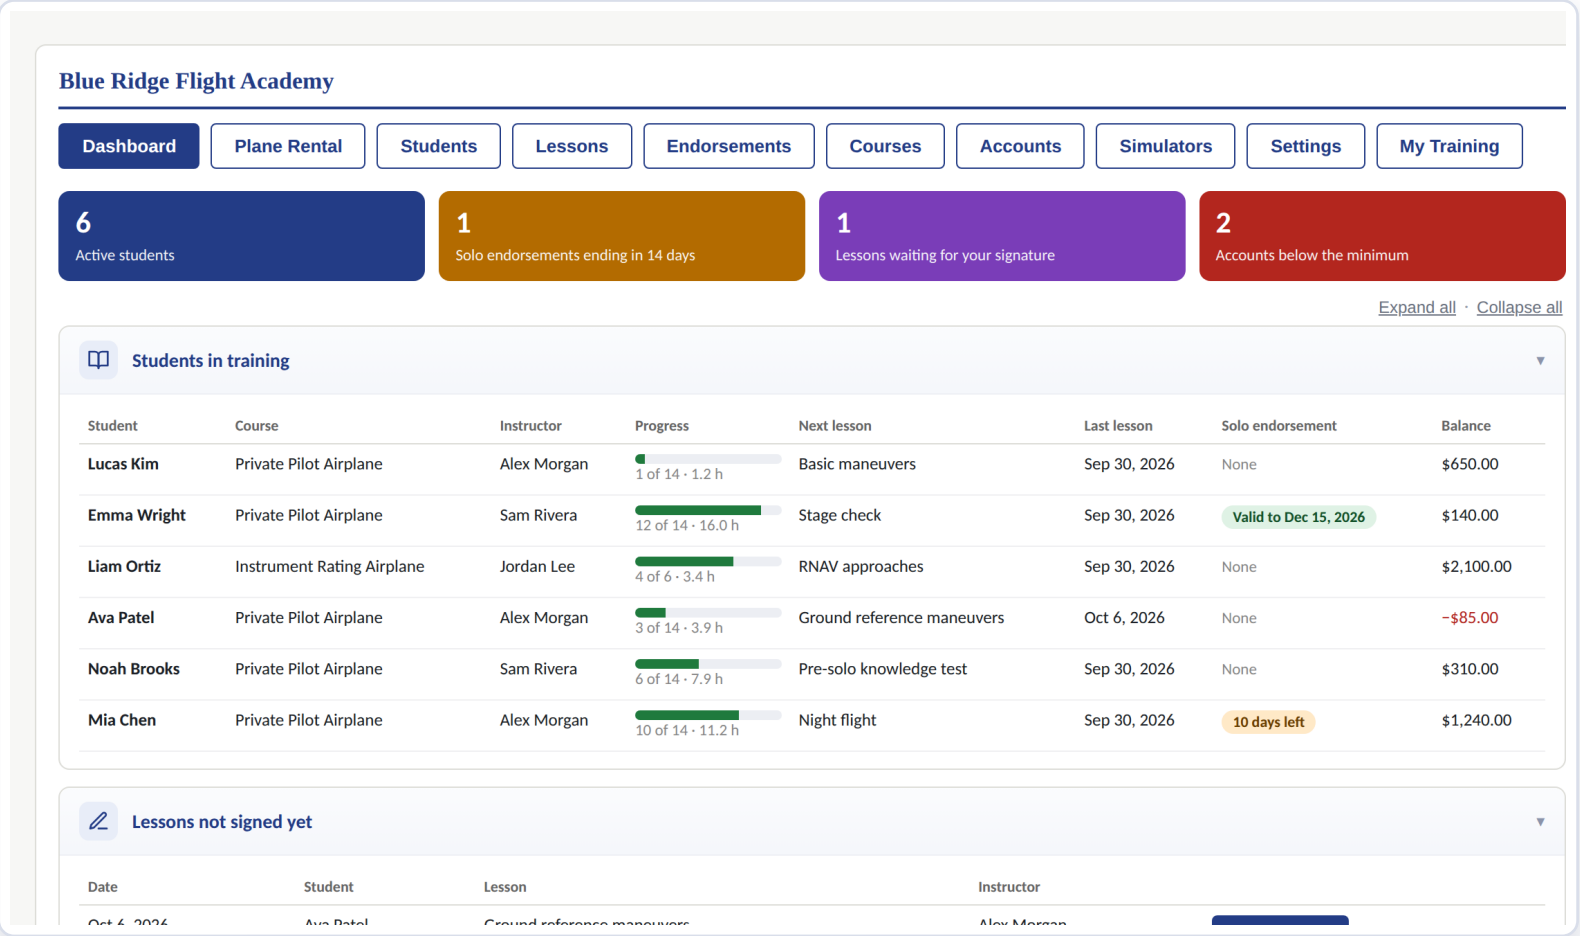

BILLING

Billing without re-typing

Check-in turns Hobbs or tach into the invoice for aircraft, instruction and ground time, paid from prepaid credit, with a draft lesson waiting for the instructor.

DASHBOARD

Every student's progress on one page

1 **Students in training**

Course, instructor, lessons done, hours, next lesson and balance for each student.

2 **What needs attention**

Solo endorsements running out, lessons waiting for a signature, accounts below the minimum.

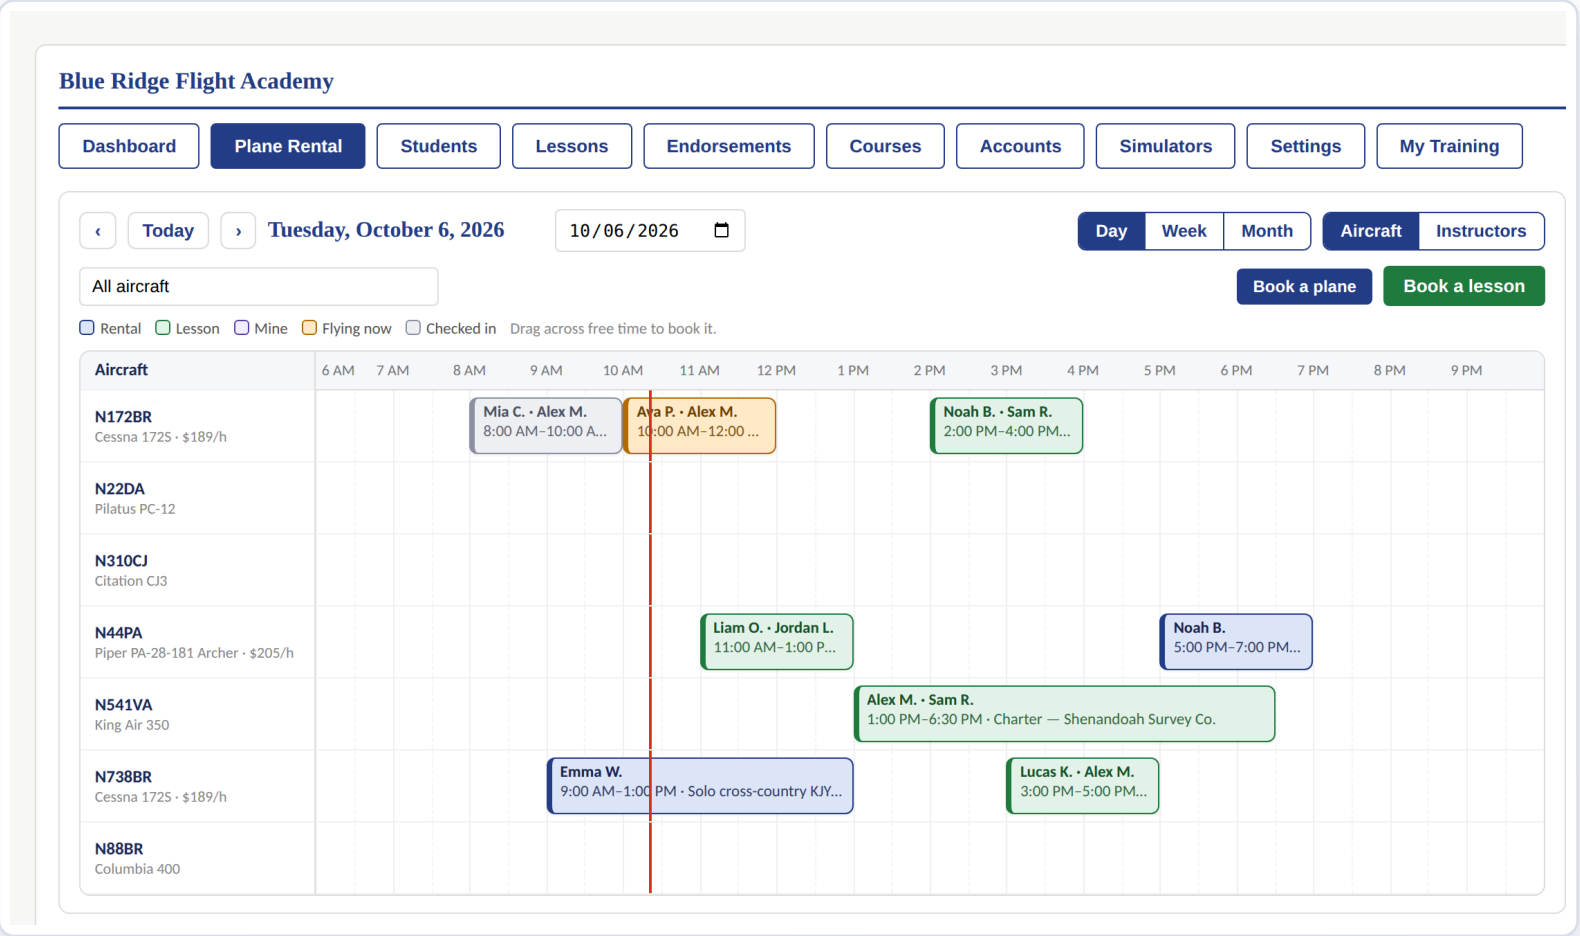

3 **One click to act**

Each tile opens the list behind it.

> *"The whole school on one page, before the first flight."*

PLANE RENTAL

A calendar of every aircraft and instructor

1 **Day, week and month**

By aircraft or by instructor; drag across free time to book.

2 **Lessons and rentals**

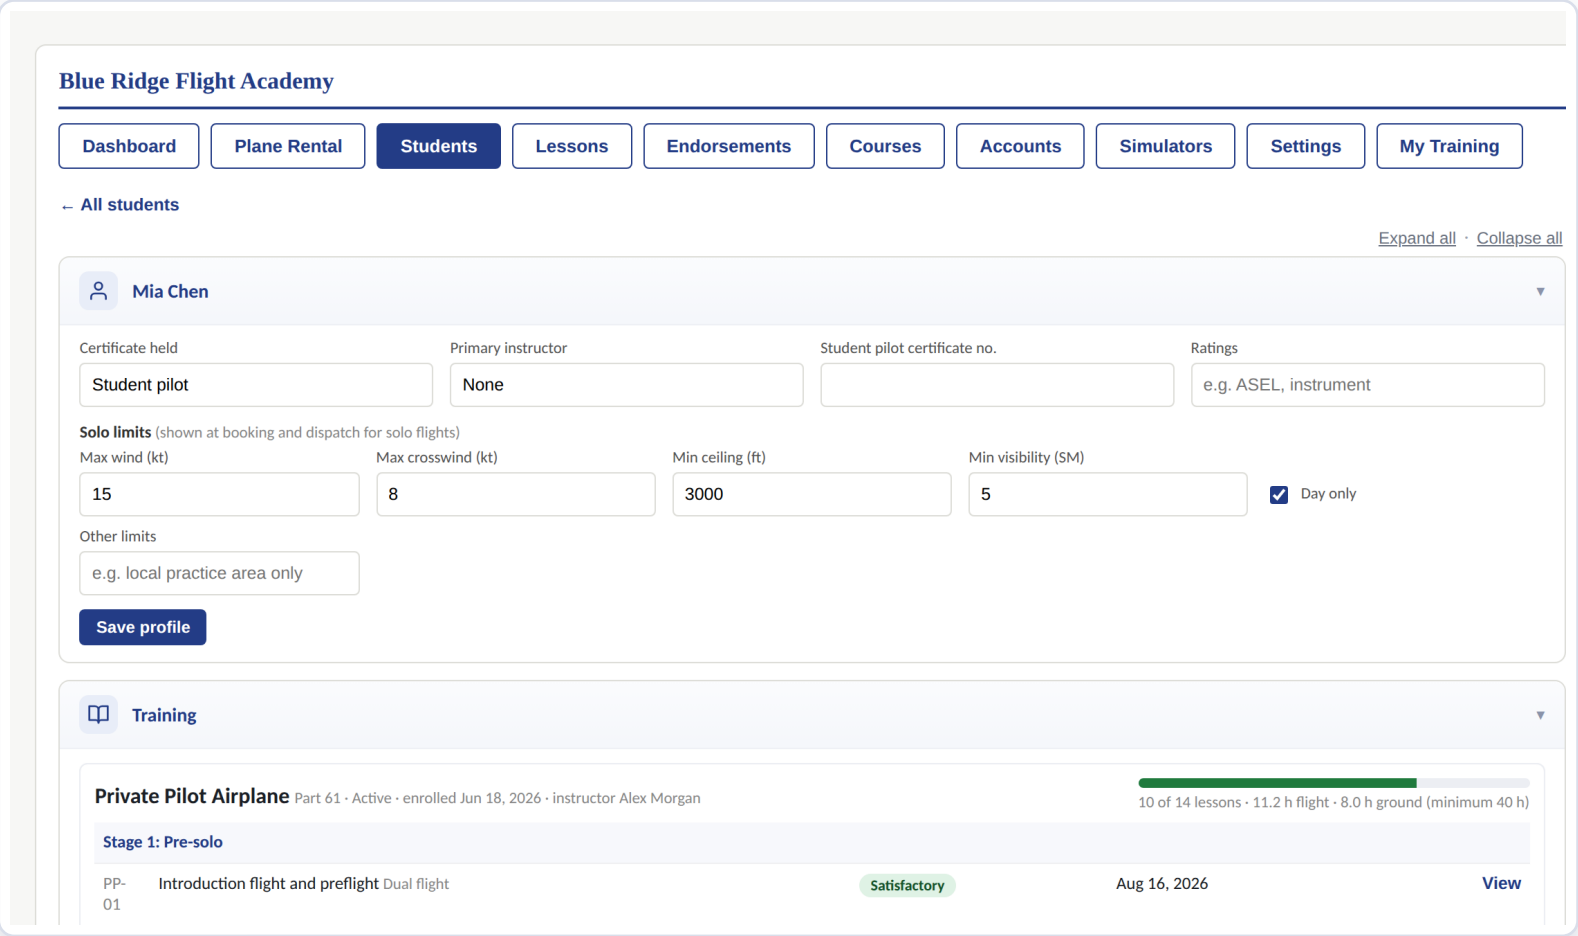

Colors show lessons, rentals, aircraft flying now and checked-in flights.

3 **Rules checked as you book**

Endorsements, checkouts, currency and balance, before the booking is saved.

COURSES

Part 61 and 141 courses with stages and lessons

1

18 standard courses

Certificates, ratings, CFI, CFII and MEI, endorsements, flight review, IPC and ground schools.

2

Progress per student

Lessons done against the course, with flight and ground hours against the minimum.

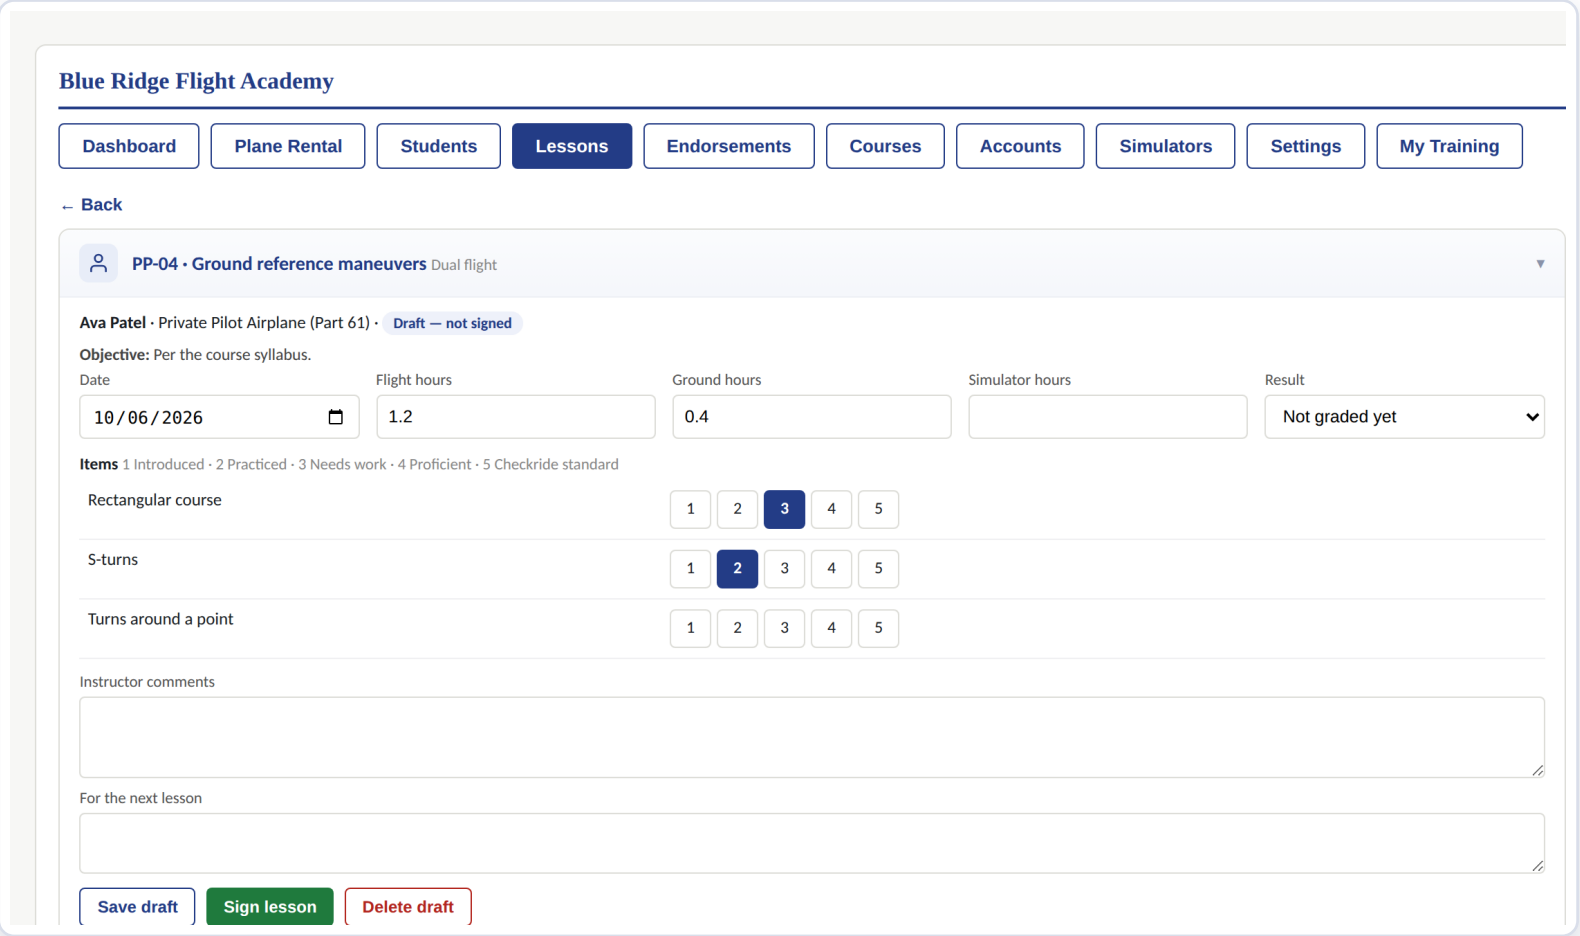

3

Part 141

Stage and end-of-course checks by the chief or a check instructor, never the student's own.

LESSONS

Graded lessons the instructor signs

1

Each item graded 1–5

From Introduced to Checkride standard; the lesson marked Satisfactory, Unsatisfactory or Incomplete.

2

Signed and locked

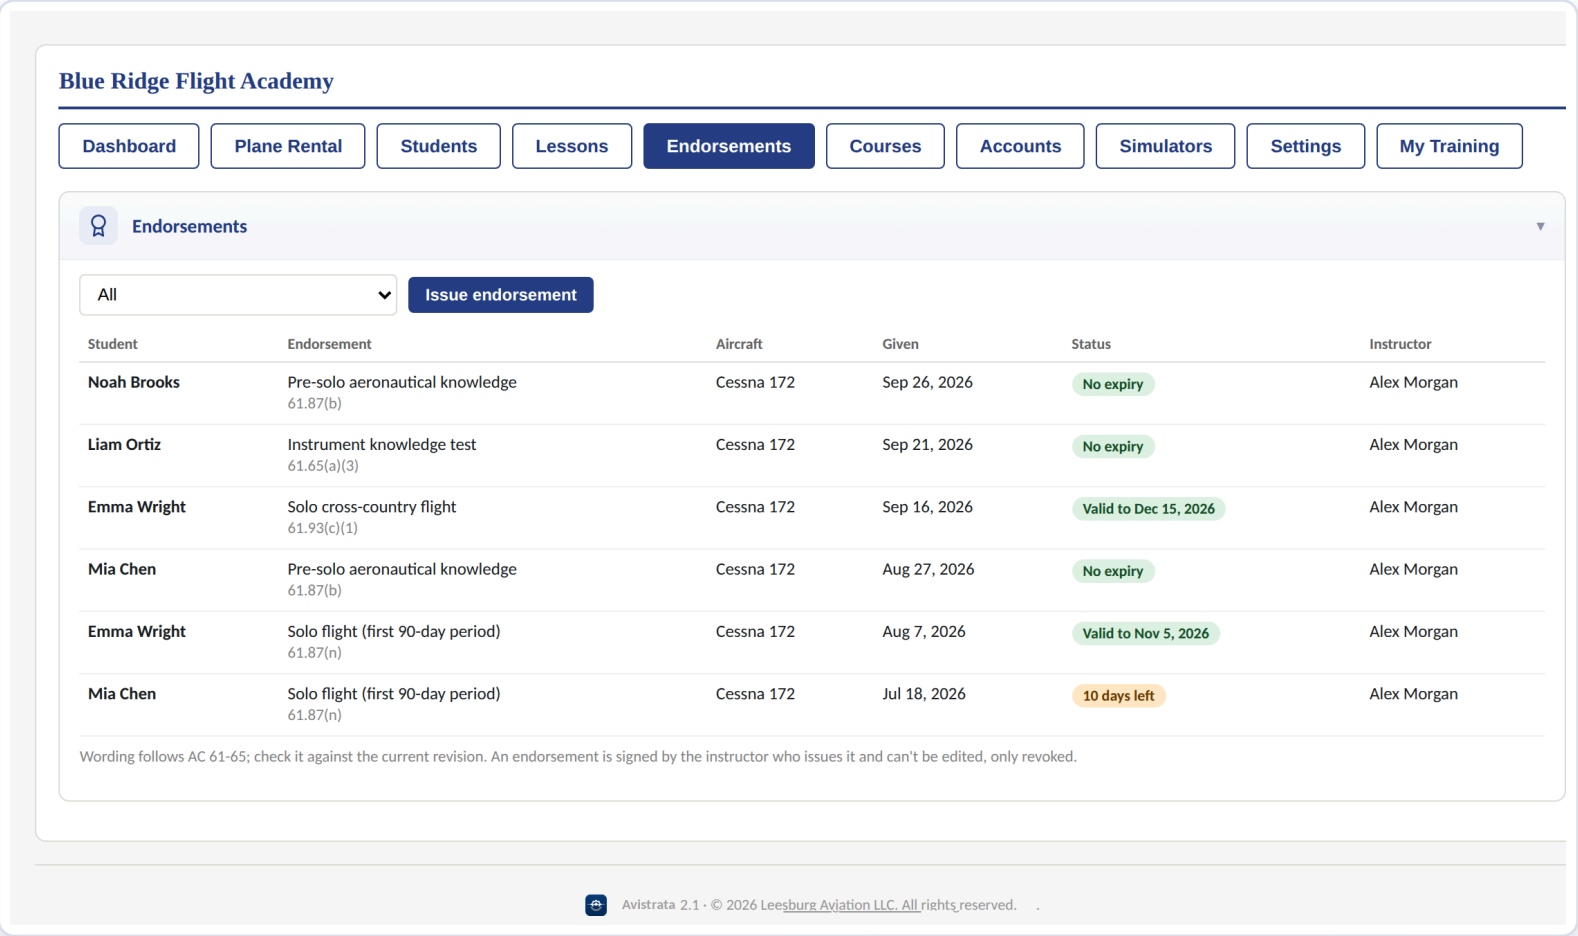

A signed lesson can't be changed, and the student confirms they've read it.

3

Starts at check-in

A draft lesson record is waiting for the instructor when the flight checks in.

Endorsements in the style of AC 61-65

1

19 standard templates

The wording fills in the student and aircraft; the CFI signs and issues it.

2

Expiry tracked

Solo endorsements show the days left and block bookings when they lapse.

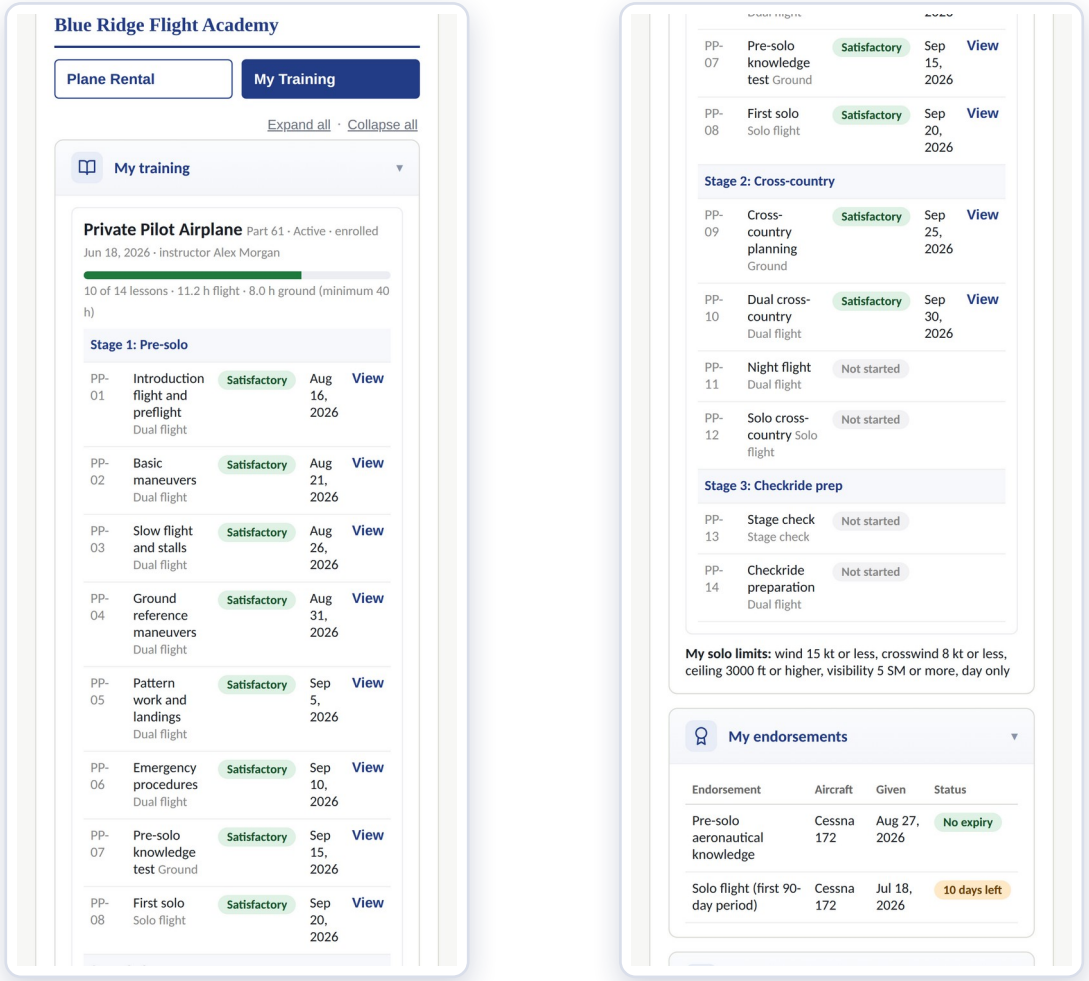

3

Print or copy

Print it or copy the text for the logbook; revoke with a reason, with full history.

FOR STUDENTS AND RENTERS

Students see their own training

1 Course progress

Every lesson with its result, read and acknowledged by the student.

2 Endorsements and limits

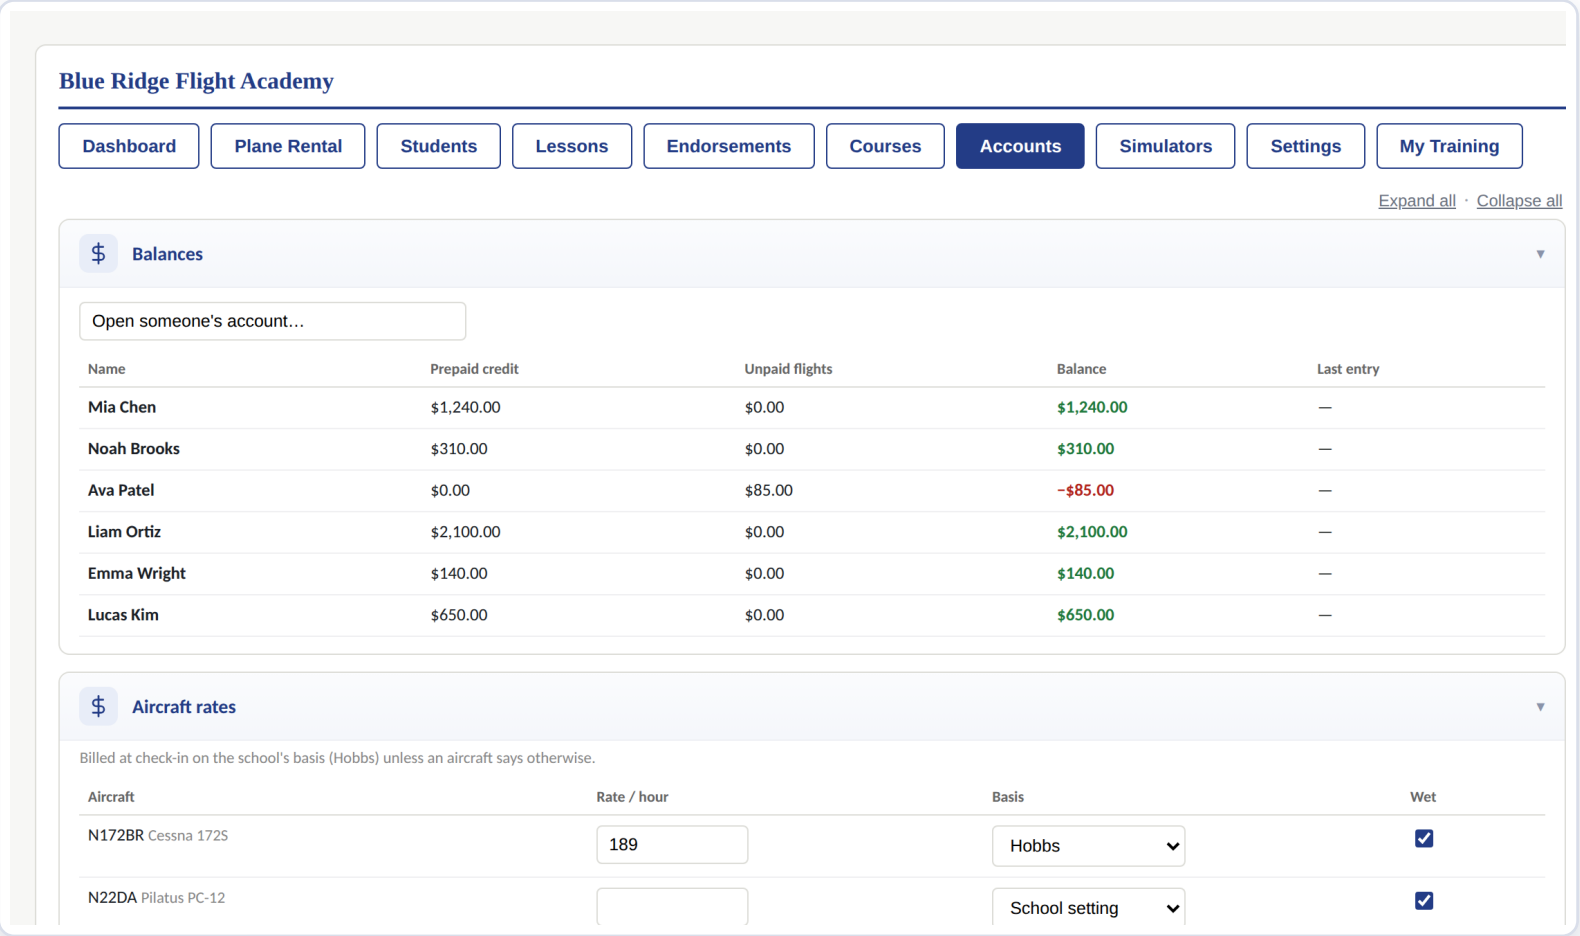

Their endorsements with days left, and their solo weather limits.

3 Book, pay and stay on time

Book a free slot with the school's rules checked, see the balance, and get booking reminders.

ACCOUNTS

Prepaid accounts and rates

1

Prepaid balances

Deposits, block-time packages, refunds and adjustments, and a statement for each pilot.

2

Aircraft and instructor rates

Per hour on Hobbs or tach, wet or dry; instructors have their own rates.

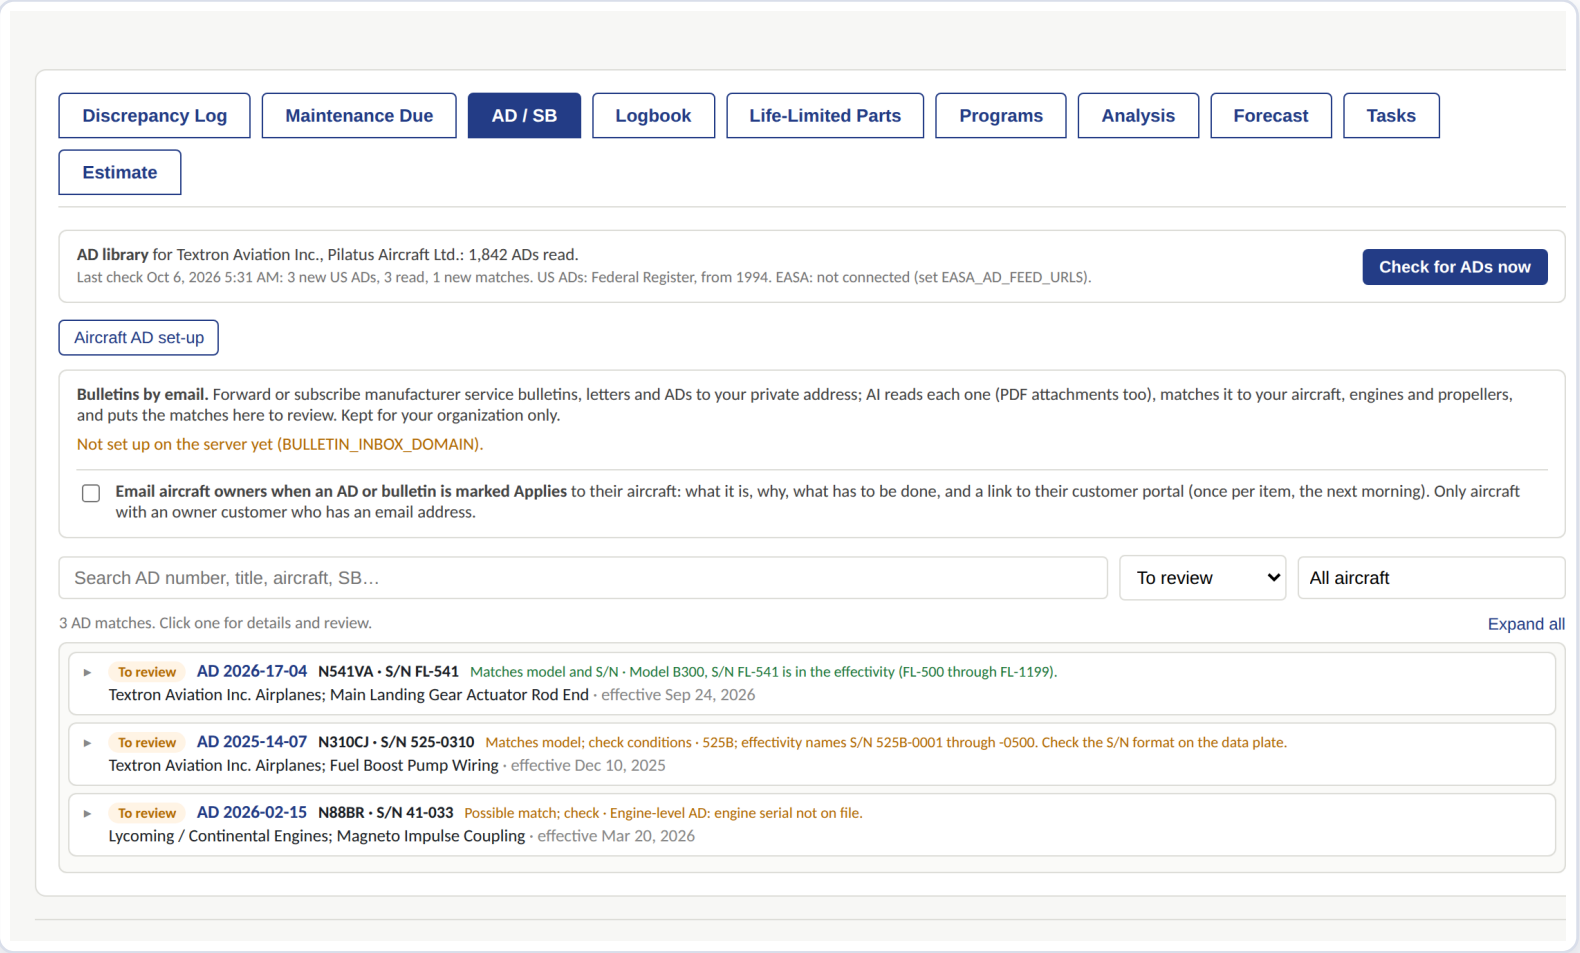

3

Minimum balance

Bookings warn or block when an account is below the school's minimum.

MAINTENANCE INCLUDED

The full maintenance workspace for your fleet

1

Due tracking

Inspections, ADs, service bulletins and life-limited parts by hours, cycles and calendar.

2

Squawks ground the aircraft

A grounding write-up takes the aircraft off the schedule and tells everyone booked.

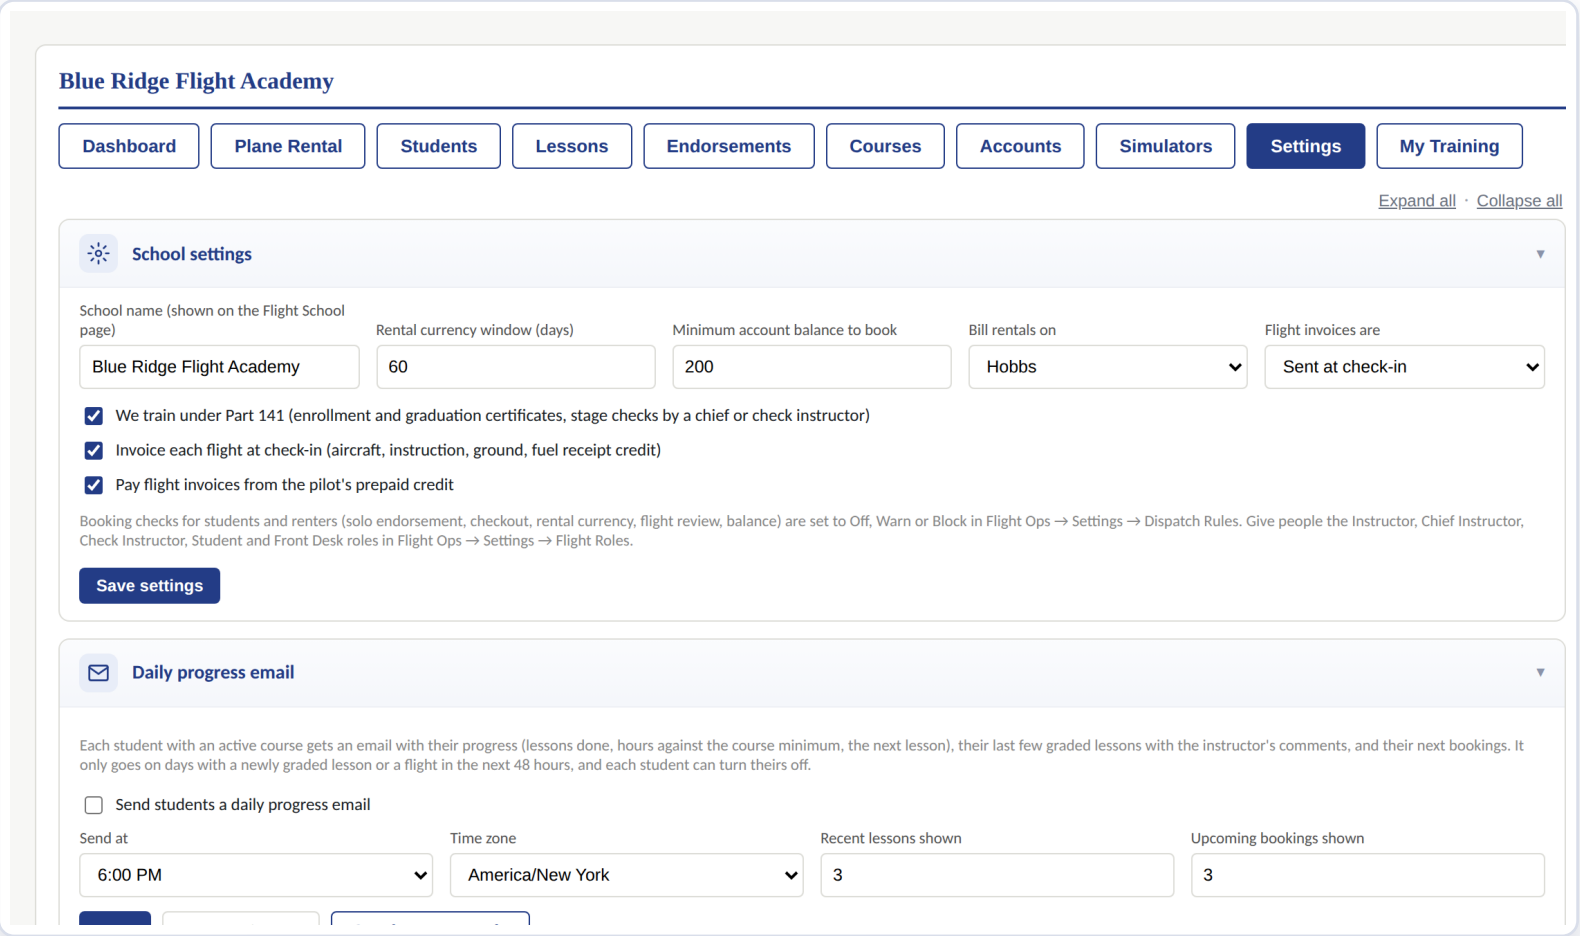

3

Signed records

Work orders and task cards with signed electronic records.

SETTINGS

Set it up the way your school runs

1

Part 141 on or off

Enrollment and graduation certificates, stage checks by a chief or check instructor.

2

Invoicing rules

Bill on Hobbs or tach, invoice at check-in, pay from prepaid credit.

3

Daily progress email

Each student gets their progress, graded lessons and next bookings.

ALSO INCLUDED

Everything else a school runs on

SIMULATORS

Simulator sessions

Sessions from partner simulators go into the logbook, lessons and billing (partner connection in progress).

FUEL

Fuel orders

Order fuel from a booking; the provider confirms and marks it fueled from an email link.

MESSAGES

Email and text

Templates sent now or scheduled, plus automatic reminders before a booking.

ROLES

Each person sees what they need

Instructor, Chief Instructor, Check Instructor, Student and Front Desk.

MOVING OVER

Bring your data with you

Connect Flight Schedule Pro or upload exports from Flight Schedule Pro or Flight Circle; check everything before it's imported.

LICENSING

Licensed per organization

Flight School is a module per organization, with the maintenance workspace included.

MRO TRACKER

NEXT STEPS

See your school in Avistrata.

30-minute setup demo

We set up your courses and aircraft with you.

Move your data

Connect Flight Schedule Pro or send your exports; you check before anything is imported.

Start training

Instructors grade and sign lessons from the first flight.
