MRO MARKETPLACE · NOW OPEN

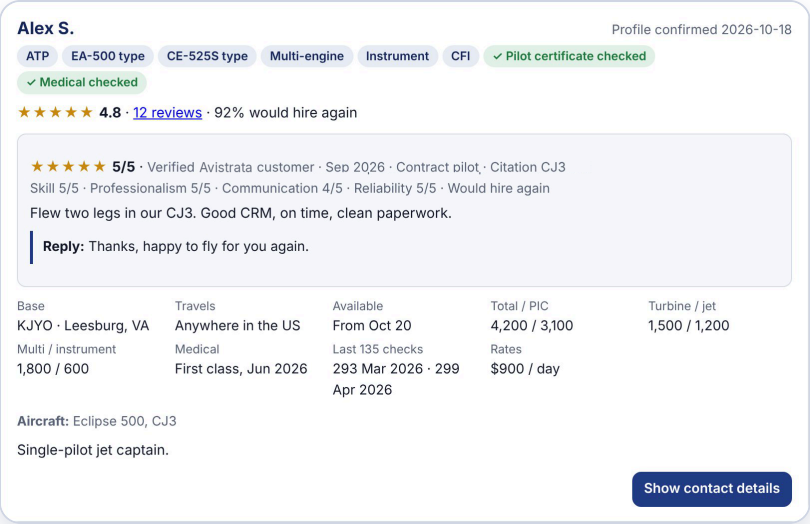

Contract pilots, CFIs, A&Ps and IAs, with their qualifications and reviews in one place.

The MRO Marketplace is a directory of contract pilots, flight instructors, A&P mechanics and IAs. Search it by type rating, hours, medical, Part 135 checks, specialty and availability. We check each contractor's certificates before their profile appears. Avistrata customers see names and contact details, record the jobs they hire for, and review the work.

Contract pilots · Flight instructors · A&P mechanics · IAs · Checked certificates · Verified reviews · Free to search

SEARCH

The right person for the aircraft and the date

A contract pilot's profile: type ratings, checked documents, hours, medical, last Part 135 checks, rates and reviews

An IA's profile: A&P and IA status, specialties and experience

Filters

- Pilots: type rating, certificate, total, PIC and turbine hours, medical, Part 135 experience
- Instructors: rating, what they teach, dual given, Part 141, own aircraft
- Mechanics and IAs: specialty, and only IAs that are current
- Everyone: state, date available, keyword and minimum rating

Free to search

Anyone can search. Public profiles show qualifications, base, travel, availability and rates, with a first name and last initial.

Contact details for customers

Signed in to Avistrata on a paid plan, you see the full name, email and phone number. Each lookup is logged, which keeps the directory from being scraped.

Certificates checked

Contractors upload their certificates, medical and IA. We check them before a profile is listed, and a "checked" badge shows which ones.

REVIEWS

Only from customers who hired them

STEP 1

Find them

Search the marketplace and open the contractor's contact details.

STEP 2

Record the job

"Hired them? Record the job": dates, role, aircraft and location.

STEP 3

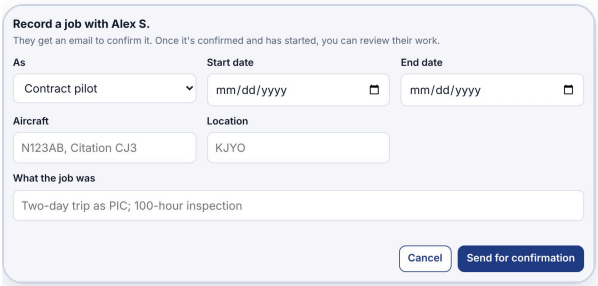

They confirm

The contractor confirms the job from an email. No confirmation, no review.

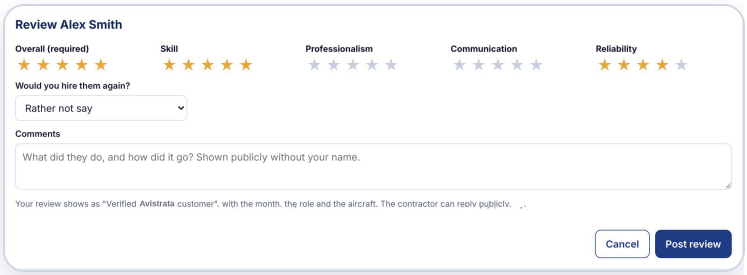

STEP 4

Review the work

Once the job has started: overall stars, skill, professionalism, communication, reliability and "would you hire again".

Recording a job after you've contacted a contractor

Reviewing a confirmed job under Your jobs

Reviews you can trust

One review per confirmed job. The public sees "Verified Avistrata customer", the month, the role and the aircraft, never your name.

Fair to contractors

Contractors can reply publicly once, and can report a review they think is unfair for Avistrata to look at.

Changeable for 30 days

You can edit your review for 30 days, for example once the paperwork has come back.

GOOD TO KNOW

What the marketplace does and doesn't do

Question	Answer
Who's in it?	Contract pilots (private, commercial, ATP), flight instructors (CFI, CFII, MEI, sport, helicopter and ground instructors), A&P mechanics and IAs who listed themselves and agreed to be listed. It's free for them.
How current is it?	Profiles that aren't confirmed for 4 months drop out of search. An IA whose authorization has lapsed doesn't show in the IA search.
Does it replace my own checks?	No. The hiring operator still does its own qualification, training and records checks, including the Pilot Records Database (14 CFR Part 111) and Part 135 checks where they apply.
Who pays the contractor?	You do, directly. Avistrata takes no fee on the job.

Need a pilot, a CFI or an IA next week?

Search it free at mrotracker.com/marketplace, or book a 30-minute Avistrata demo.
